

# ML Workshop

*“Explore the future with our Machine Learning seminar, Knowledge is power and innovation awaits” was a thoughtprovoking and entertaining event that the IEEE MAIT hosted on October 10, 2023 in collaboration with Dr Vinay Saini sir (HOD AI&DS MAIT), to celebrate the joyous occasion of IEEE day. The event's goal was to mentor the next generation in the use of emerging technologies and inform them on developments in the domains of machine learning and artificial intelligence. We are delighted to report that the event was a huge success.*
