Title of Project
IOT Based Smart Energy Meter
Laser Light Security System
Accident Prevention and Traffic Road Sign Detection assistant
Remote Controlled Self Balancing Robot
The Braille Cell
Electroencephalography Machine
GSM Based Alert & Gas leakage Detector System
GSM based substation monitoring and control system
Smart Garden Monitoring and Management System
Auto-cut of power lines during gas leakage (with call notification)
Mobile charging with multi coin and UPI
smart parking and charging and billing and antitheft protection system with using rfid and card reader
Automobile Locking, Tracking and Detecting system
FACTS USING TSR
Alcohol Detector
Social Distancing Cap
Advanced Footstep Power Generation System
Power train and DAQ layout of an evehicle
MOBILE PHONE JAMMER
Contactless hand sanitizer dispenser
Portable Refrigerator
Blue tooth car controller
Smart Shopping Cart
