Each student's interview lasted for approximately 20 minutes. Students were assessed on communication skills, technical knowledge relevant to their field, confidence, and professionalism.

Summary of Results

Most students demonstrated good technical knowledge but showed varying levels of confidence and communication skills. Common issues included hesitation in answering behavioural questions and lack of concise responses.

Feedback from Students:

Most students expressed that the mock interviews were a valuable experience that helped them understand the interview process better.

Many appreciated the opportunity to practice answering variety of questions, including technical and behavioural in a realistic setting, which boosted their confidence.

Constructive feedback from interviewers helped students identify their strengths and areas for improvement.

Students suggested to conduct more mock interviews on a regular basis to gain further practice.
