

Report:

On December 15, 2022, the halls of MAIT's Electrical and Electronics Engineering (EEE) Department resonated with creativity as Electrotech successfully organized the "Logo Making Competition: Unwind Reminder 2.0." This inventive event seamlessly blended the worlds of creativity and engineering, inviting students to design logos that encapsulate relaxation within the intricate realm of electrical engineering.

Under the expert guidance of Ms. Jyoti Gupta and the efficient coordination of Poonam Juneja, participants unleashed their artistic talents, transforming abstract concepts into visually compelling logos. This competition not only allowed for the expression of creative flair but also underscored the department's dedication to fostering holistic development among its students.

The logos, each a unique masterpiece, became visual representations of relaxation in the context of electrical engineering. Ms. Jyoti Gupta's insightful guidance provided participants with a valuable perspective, encouraging them to explore the artistic dimensions of their technical expertise. Poonam Juneja's coordination ensured the smooth flow of the competition, creating an environment where creativity thrived.

As the competition concluded, the diverse array of logos stood as a testament to the department's commitment to nurturing a well-rounded educational experience. The event not only celebrated the convergence of creativity and engineering but also emphasized the importance of fostering a holistic skill set.
